**Avoid/decrease spicy,  
salty, sugary and acidic  
foods, caffeine and  
alcohol. If you consume,  
rinse with water or chew  
sugarless gum (xylitol if  
possible) to neutralize  
the pH.**

**Xylitol neutralizes  
pH and prevents  
bacteria from  
sticking to teeth. A  
high volume intake  
can cause gastric  
distress.**
