'Mr. C Plays Hide & Seek' helped me to understand that people in your life may die in the physical sense but never in your heart.'

Hannah Bodner, Age 14

'I don't like to talk about cancer, but I was OK reading 'Mr. C Plays Hide & Seek' because it describes things I've heard about but didn't really understand.'

Jade Bodner, Age 11

At first glance, I had reservations sharing a book about the anthropomorphizing of cancer with my daughter. Seeing it through her eyes changed my opinion entirely. Mr C. kept it light; she chuckled multiple times. At the end, she said, "I like the way you can help get rid of it and still have fun together." Hide & Seek facilitated lots of conversation. I wish I had this book sooner!

Christina Radzilowicz, Mother, Advanced stage cancer survivor

"As much as I had a strong aversion to meeting Mr C. personally, I fell in love with Mr C. the character....strange as it may seem."

Ronni Spoll, Founder, Chemocaps.com

"Mr. C Plays Hide & Seek" makes it easier for kids to digest tough information.

Sam LaMonte, M.D., FACS

There is wonderful imagery and flow to this book. The facts inform without frightening children.

Karen Maurer, Librarian, Bethlehem PA

Mr. C is addressed as something outside of a person, a clever way to make the subject of cancer more tolerable for children. Loved the photos, too.
